**Address:** Caybasi Neigh. 1353 Street. 10/2, 07100, Antalya, Türkiye (Home)

### WORK EXPERIENCE

#### FLYR | AI-POWERED PURPOSE-BUILT TECHNOLOGY FOR TRAVEL & TRANSPORTATION – ANTALYA, TÜRKIYE SENIOR SOFTWARE ENGINEER – 01/09/2023 – CURRENT

Lead and mentor a team of software developers, fostering a collaborative and innovative team culture and provide guidance on technical issues, code reviews, and best practices.

Contribute to the design, architecture, and development of scalable, reliable, and maintainable software solutions. Actively participate in coding tasks while conducting code reviews to ensure code quality and adherence to standards. Collaborate with project managers and cross-functional teams to plan and deliver high-quality software on time and within budget. Continuously identify areas for process improvement, stay updated with industry trends, and integrate relevant advancements to enhance development efficiency.

#### FLYR | AI-POWERED PURPOSE-BUILT TECHNOLOGY FOR TRAVEL & TRANSPORTATION – ANTALYA, TÜRKIYE ENGINEER TECH IMPLEMENTATION AND SUPPORT – 01/04/2023 – 31/08/2023

Provide prompt technical support to customers, addressing issues and collaborating with development teams to implement new features. Design, develop, test, and debug software applications, working closely with product managers to translate user needs into technical specifications. Contribute to creating scalable, reliable, and maintainable systems, ensuring seamless integration of new features while maintaining system stability. Participate in code reviews to uphold quality standards, execute test cases to identify and resolve defects, and troubleshoot errors to minimize downtime. Collaborate with cross-functional teams to meet project goals and communicate technical concepts effectively to all stakeholders. Continuously seek process improvements and stay updated on industry trends.

#### CONDOR FLUGDIENST GMBH – ANTALYA, TÜRKIYE EXTERNAL SOFTWARE ENGINEER – 01/01/2022 – 01/02/2023

Commissioned by Pribas and outsourced to Condor Airlines, I served as an External Software Developer, collaborating closely with Condor's teams to design and implement software solutions tailored to their operational needs. I specialized in addressing technical challenges, ensuring seamless software integration into Condor's environment. My role involved designing, coding, testing, and debugging applications, working with product managers to translate user needs into technical specifications. I contributed to the design of scalable, reliable, and maintainable systems, stayed updated on industry best practices, participated in code reviews, and executed test cases to ensure quality and resolve defects. I worked with cross-functional teams to achieve project goals and communicated technical concepts effectively to all stakeholders, while continuously seeking process improvements and staying current with industry trends.

#### PRIBAS TURKEY LTD. – ANTALYA, TÜRKIYE SOFTWARE ENGINEER – 21/10/2021 – 31/03/2023

Design, develop, test, and debug software applications while working with product managers to translate user needs into technical requirements. Contribute to creating scalable, reliable, and maintainable systems, and stay informed on industry best practices and emerging technologies. Participate in code reviews to uphold quality and coding standards, and execute test cases to identify and resolve software defects. Collaborate with cross-functional teams to meet project goals, effectively communicate technical concepts to all stakeholders, and identify areas for process improvement while staying current with industry trends.

#### FREELANCER – ANTALYA, TÜRKIYE

## FULL STACK SOFTWARE ENGINEER – 01/02/2019 – 01/09/2021

Responsibilities encompassed end-to-end development across desktop, web, and mobile platforms. Involved in project management, including planning and execution, ensuring timely delivery within scope and budget. Technical oversight involved contributing to system design, conducting code reviews, and analyzing project requirements. Provided personalized support to end-users and collaborated with cross-functional teams to achieve project goals. Emphasis on continuous improvement, identifying areas for process enhancement, and staying current with industry trends and technologies.
